

Survey report

Ankur Sinha: FranciscoD

December 23, 2011

1 Statistics

Total submissions: 36

2 Salient points

1. Most of the Ambassadors that took the survey are active.
2. Activities:
 - (a) **Organizing fedora events: FADs, release parties and the rest**
 - (b) **Distribution: Locally, Fedora freemedia, etc.**
 - (c) **Marketing**
 - (d) I10n
 - (e) **Troubleshooting: #fedora, askfedora, forums, personal queries, users mailing list**
 - (f) **FAmSCo**
 - (g) Design and other teams/SIGs
 - (h) **blogging**
3. **Note:** Not all these activities are Ambassador related. Contributing to fedora in other teams **does not** automatically qualify one as a Fedora Ambassador.
4. Issues and **my** suggestions
 - (a) Lack of time: No solution on a person to person basis. More ambassadors can co-ordinate to get over this.
 - (b) Swag, goodies, media for events, event box: FAmSCo, APAC, EMEA need to work on this
 - (c) Responses to swag and media requests for events not on time, reimbursement process slow: FAmSCo needs to discuss this
 - (d) Meeting timings: No real solution
 - (e) Not enough Ambassadors in some areas: Ambassadors need to go out and “recruit” more people.
 - (f) Regional IRC channels need assistance, #fedora-zh for example: More volunteers needed

- (g) Wiki pages not up to date: Email once in two months requesting the community to update their wiki page; community members should take ownership of certain wiki pages. It is then their responsibility to keep their pages up to date.
 - (h) Freedia: Discussion ongoing on the freedia list
 - (i) Lack of events: Regional ambassadors need to get together and do more fedora events
5. Quarterly survey (anonymous entry permitted) as a channel for Ambassadors to voice the issues they face.
